FABRICATORS**

WHAT IS MONKEY IN THE METAL?

Monkey in the Metal is a furniture fabrication company that provides artistic design solutions by creating striking pieces imagined from our surroundings. We strive to build items that are unique and reflect a design that is modern, industrial, and functional. A style that can be summed up as 'Warm Industrial'. We are creators of all things metal, wood, and reclaimed objects.

WHY DID MITM START?

- Building pieces that can't be found via traditional methods or through a need to be customized for specific installations.
- Details matter. The end user won't see the underside of a table, but we do.
- We care about creatively solving design problems. We deliver on mutual expectations of timeliness and quality.
- Parts and materials are sourced locally when possible. All metal and wood fabrication are done in house.
- Our CNC process speeds up production and increases accuracy in construction.

HOW IS IT BUILT?

Client Centered Collaborative Design Process allows end users to leave their "fingerprint" on each piece. Built to last a lifetime. Pieces are designed to be used- and used daily-despite the environment.

LEGG MASON

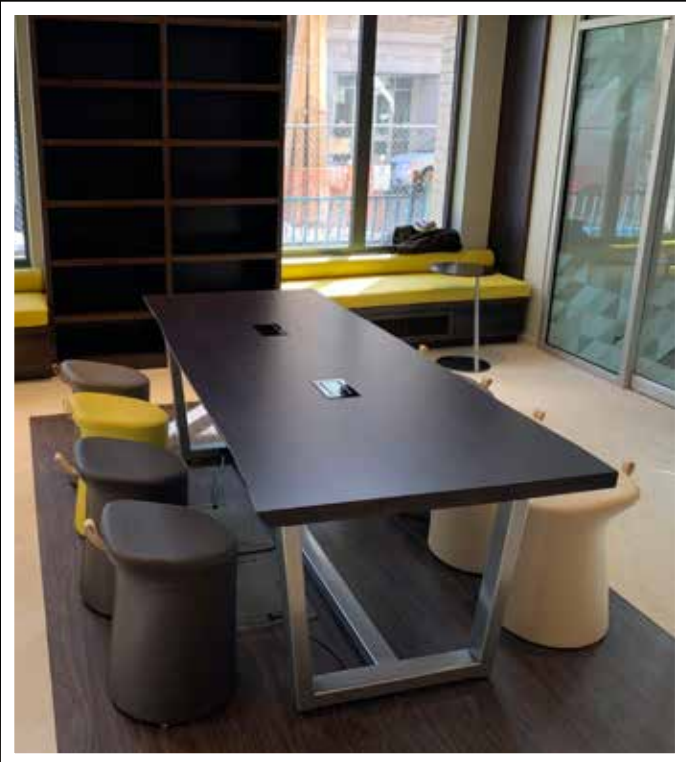

HELPING TO CREATE THE
WORK SPACE OF THE FUTURE
WHILE USING MATERIALS
FROM THE PAST.

*Reclaimed wood from Baltimore
row homes.*

WORK SPACES...

Bringing your ideas and creations to life to fit your needs. No matter the challenge.

**FROM FABRICATION TO
FINISHED PRODUCT.**

*Custom Style.
Custom Size.
Custom Look.*

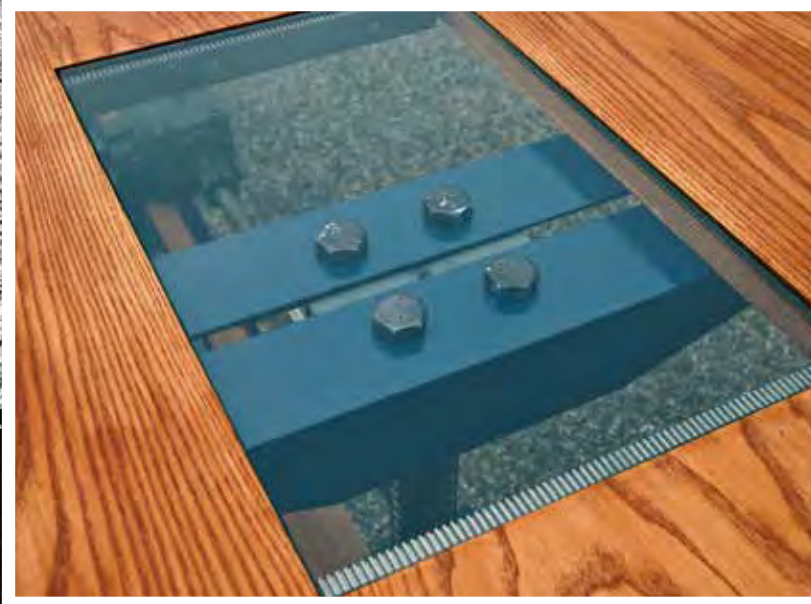

SIGNAGE & ARTWORK...

*From floors to ceilings.
Our CNC capabilities can
do anything.
Letting us do more for you.*

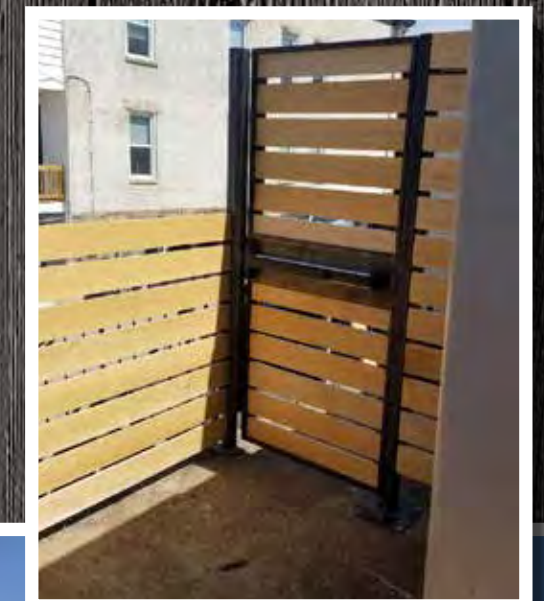

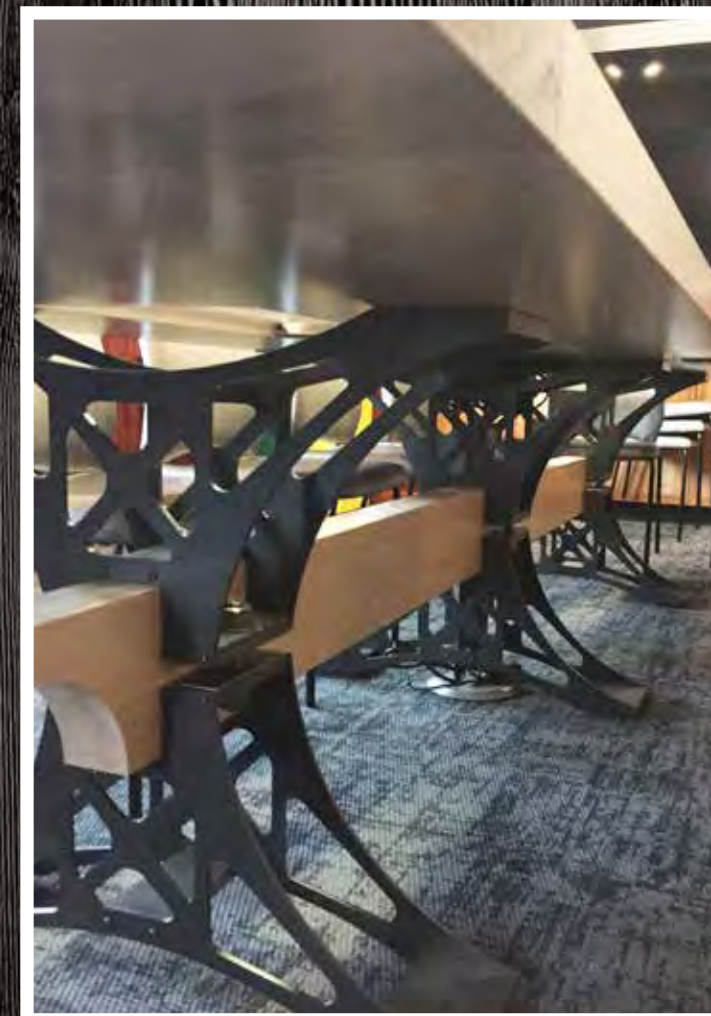

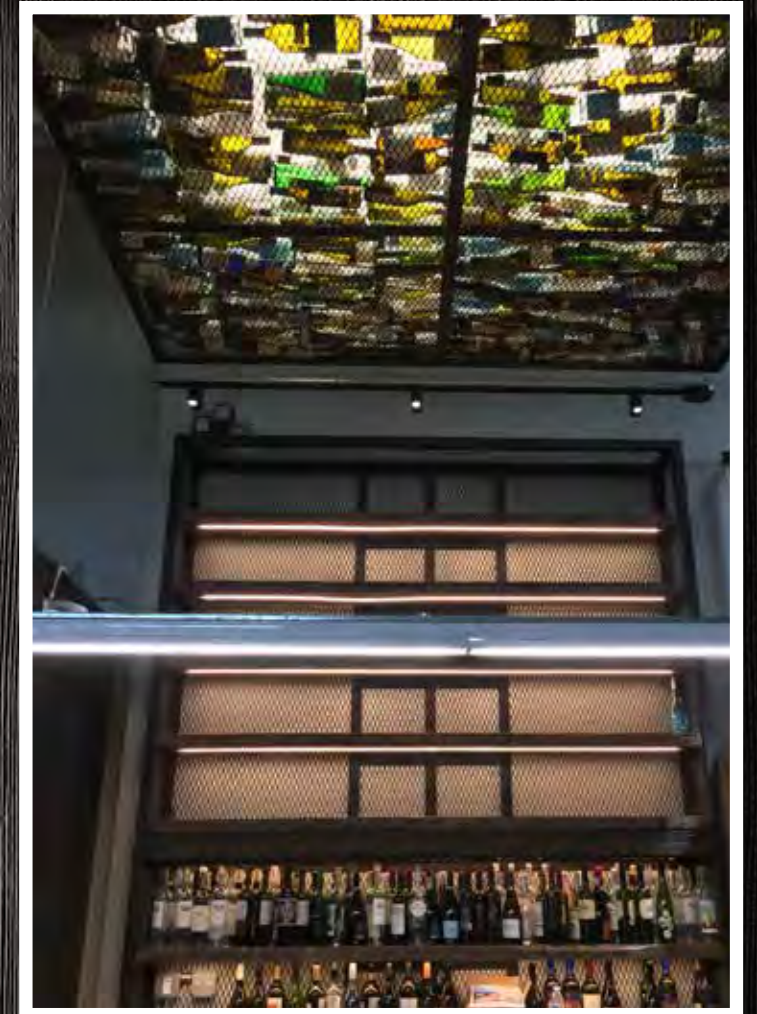

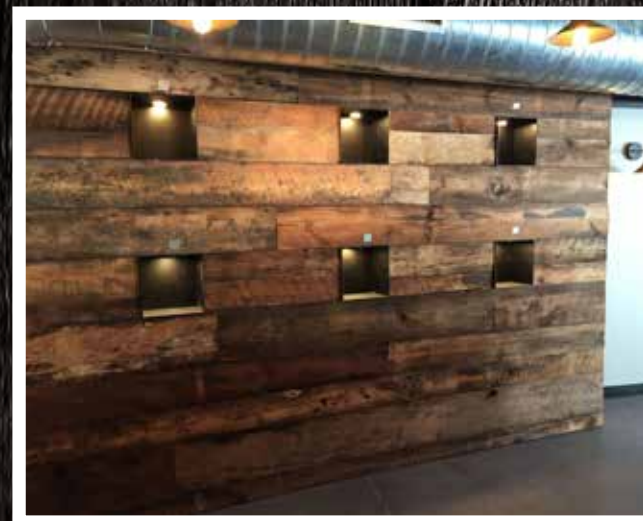

We can help build your brand with our design services.

CUSTOM BUILT FURNITURE THAT **MAKES A STATEMENT**

This piece was inspired by the Chesapeake City Bridge, which was built in 1927, one of the original vertical lift bridges in Maryland. This table can serve several different purposes in a space. Height is controlled by the center wheel allowing to be raised from 30"-45." Making its own statement.

RETAIL...

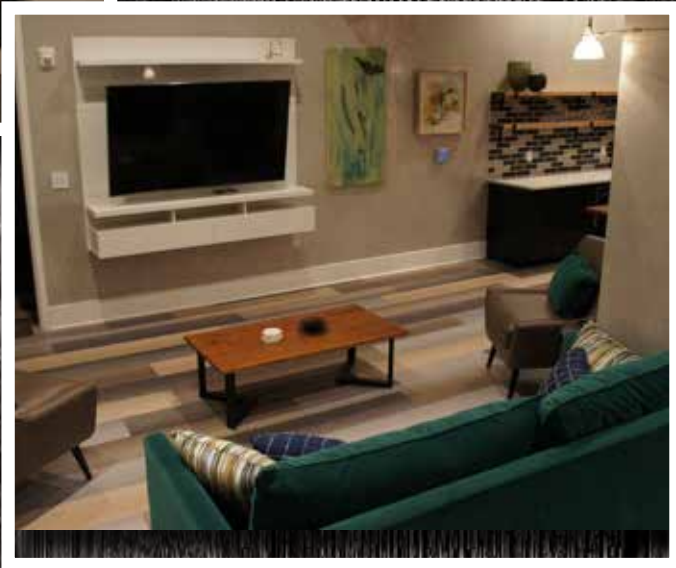

We designed. We fabricated. We installed.

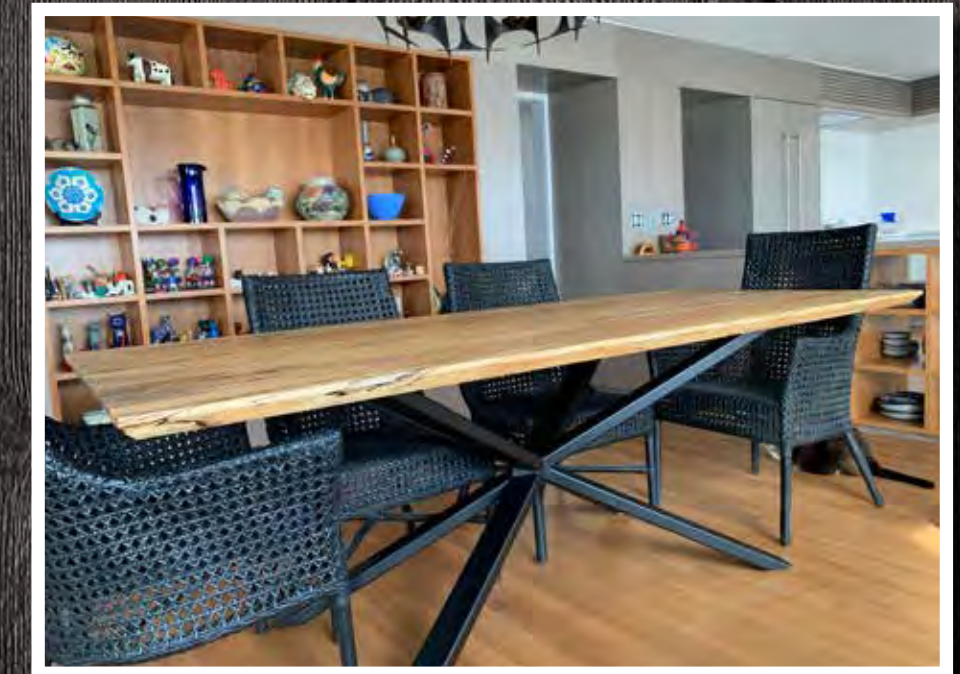

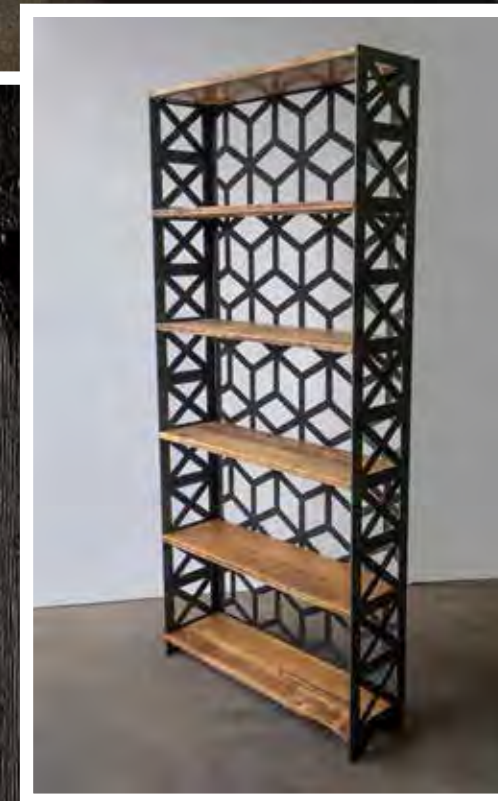

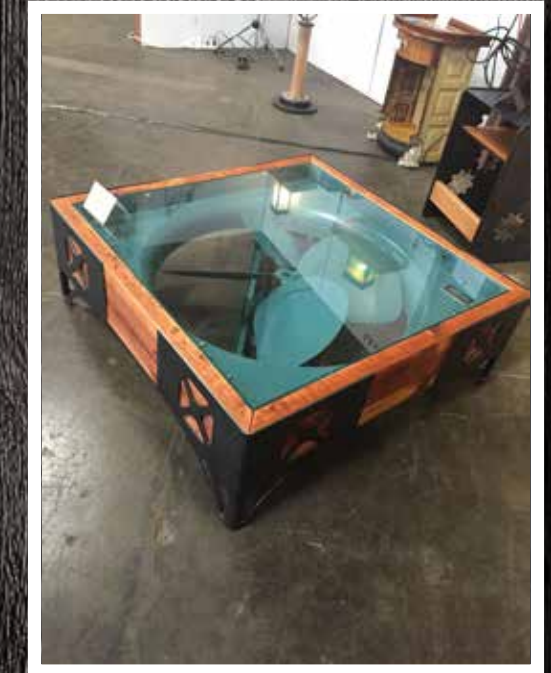

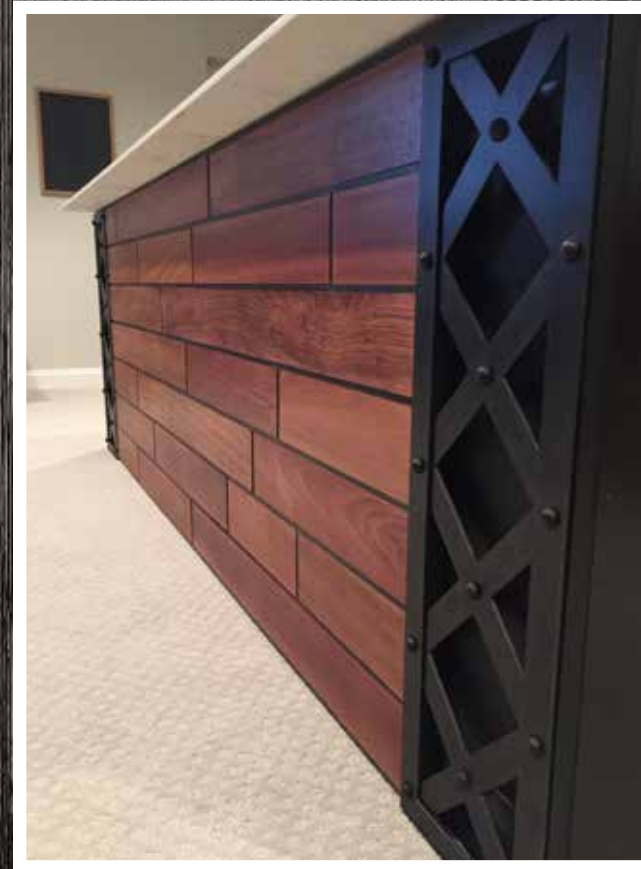

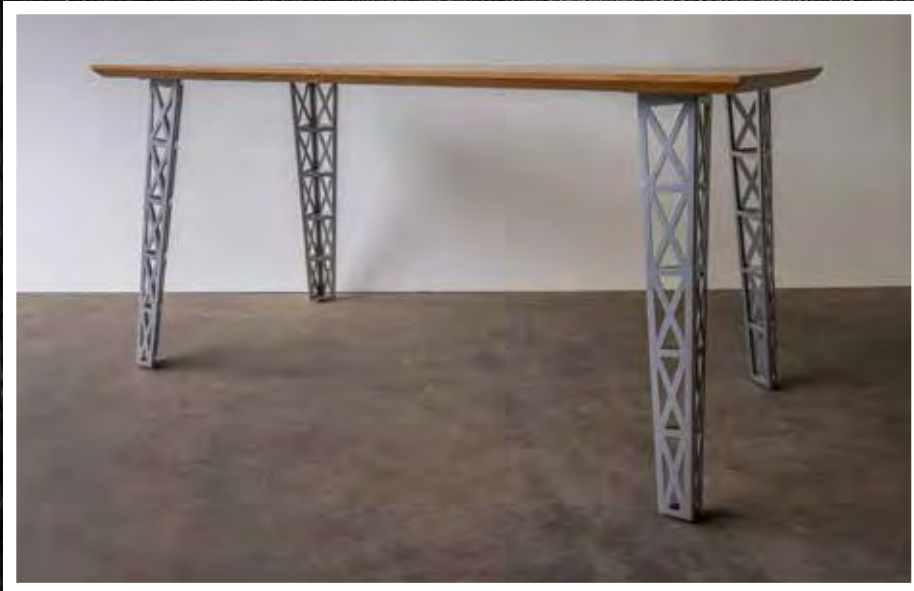

Down to the last detail.

FROM POOLS TO PENTHOUSES

We can help to creatively design solutions.

BESPOKE...

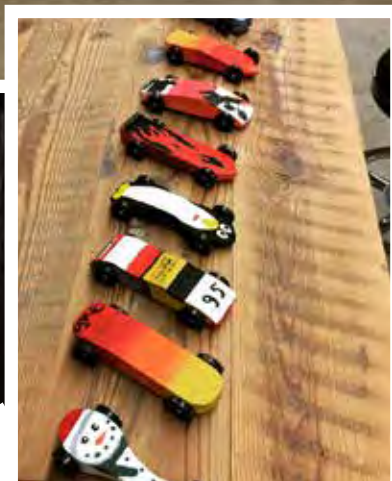

Unique, something special. No project is too small.

Your vision is our craft, let us help you.

GIVING BACK...

Our Monkey Business program helps teach industrial arts to our community.

SHIPPING:

- We ship both white glove and dock to dock. We typically deliver and install within a 100 mile radius of Baltimore, while shipping via insured freight carrier to the remainder of the lower 48 states. Shipping cost may vary based on size of the items, shipping method, and destination.
- We ship both crated and blanket wrapped, depending on availability, customer needs, and the order details. Damage in shipping is the responsibility of the carrier, however, we will assist you in addressing any damage claims and repairs that arise.
- We provide assembly instructions for on-site installation crews.
- All deliveries must be inspected immediately upon receipt to check for shipping damage.

TRADE:

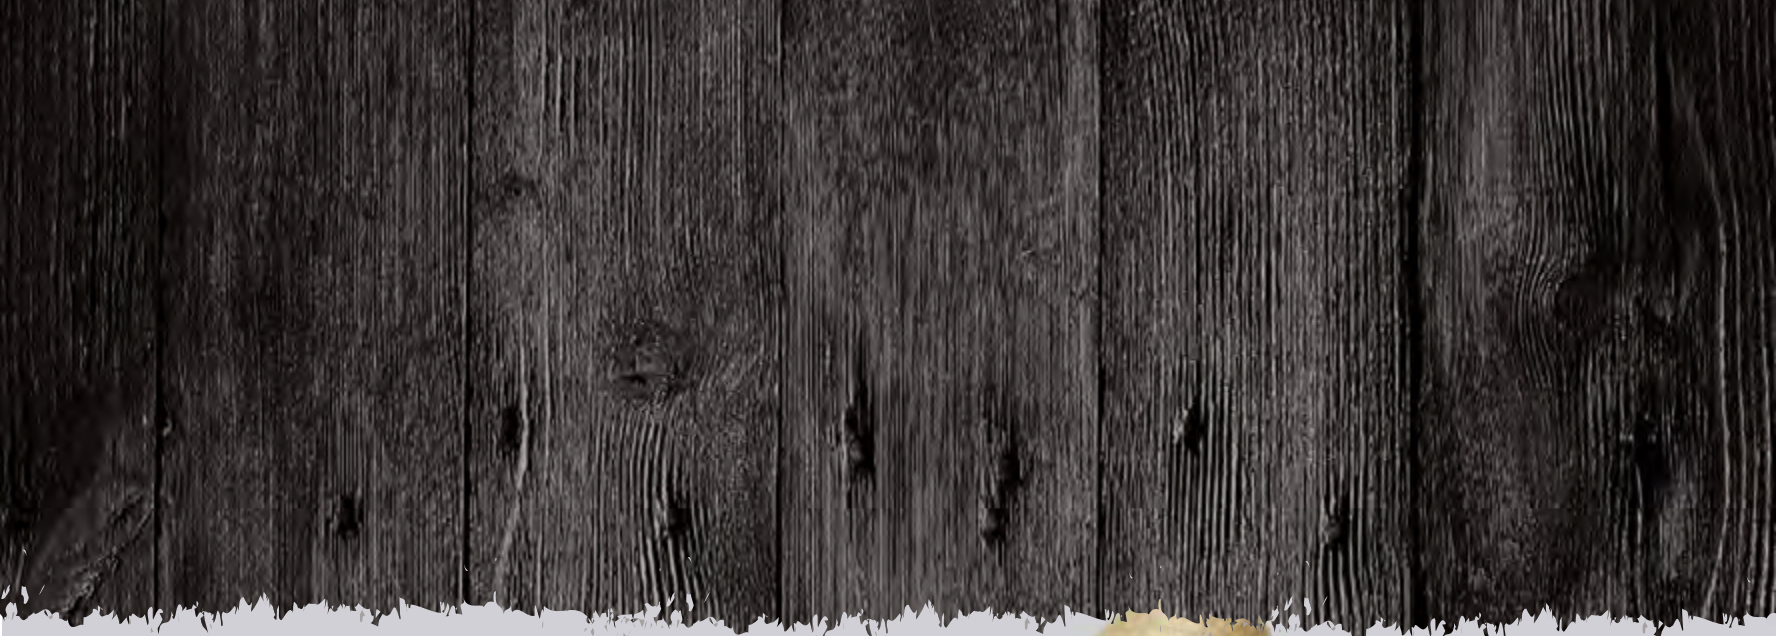

- We work closely with Interior Designers, Architects, Contract Furniture Suppliers, and other commercial and residential projects. Trade buyers receive discounts based on project size.

Monkey in the Metal warrants services rendered against any defects in workmanship of furniture for the entire period or original ownership from the date completed.

The following are not covered by the warranty:

- Defects incurred from spills, abuse, misuse, negligence, or accidents. Damage from any type of chemicals or dyes (including but not limited to food, dyes, bleach and ammonia).
- Failure of finish resulting from heat marks, liquid damage, humidity, incorrect application of chemical treatment(s), unapproved cleaning agents.
- Damage caused by fire, smoke, theft, explosion, flood or natural disaster.
- Fading or change caused by sunlight, wind or weather.
- Incidental or consequential damages, and normal wear and tear.
- The service call, packing, handling and transportation of a defective product to and from the place of manufacturing if the product has moved greater than 100 miles of the Baltimore, MD area.
